

SR 390 from Baldwin Road to Jenks Avenue Capacity Project

Project Overview

- Successfully addressed the complex logistics of increasing from a two-lane undivided roadway to a six-lane divided roadway
- Intense stakeholder collaboration
- ROW acquisition from most corridor parcels
- Pedestrian and bike lane provisions

Key Challenges

- Hurricane Michael made landfall as a Category 5
- CEI staff assisted with post-hurricane debris clean-up and community restoration

Partnering with the Community

- Improved drainage for the area
- Community safety increased through bicycle and pedestrian features
- Landscape uses native species
