

Onsite Sewage Program Overview

April 16, 2024

1 PDH

Presenter

Eb Roeder, PhD, PE - Director of Water Resource Management / Onsite Sewage Program | FDEP

Summary:

An overview of the Onsite Sewage Program will provide the audience with an increased understanding of the program and new requirements stemming from the 2023 HB 1379 and the 2016 Florida Springs and Aquifer Protection act. Attendees will learn about developments and concerns about Spring BMAP implementation and onsite sewage treatment and disposal conventional and advanced systems.
