

# ACEC Florida 2026 OUTSTANDING PROJECT AWARDS

## Silver Springs State Park Boardwalks and Pedestrian Bridge

**Client:** FDOT District Five | **Category:** Environmental

### Project Highlights

- 1,300 feet of timber boardwalk and bridges to link park areas
- Top-down construction in historical archaeologic site and cypress swamp within Outstanding Florida Water
- FDOT's first implementation of timber piles driven from the top of a structure, necessitating continuous testing and monitoring
- Polyurea-sealed piles for zero leaching risk
- Complex ADA geometry for full access and to accommodate clearance for a glass-bottom boat
