Joaquin Olivella, PE | Resident Engineer

**Design Consultants:**

Terracon Consultants, Arcadis U.S.,  
Peters and Yaffee, Pond & Company

**CEI Consultants:**

VIA Consulting Services

**Contractor:**

Sacyr Construction USA

The First Coast Expressway North Clay segment is a massive highway infrastructure project that includes every aspect of interstate/expressway construction, providing critical connectivity for the Middleburg and Asbury Lake communities to the Northeast Florida region. The corridor will deliver regional traffic congestion relief for local roadways, drive economic development by improving connectivity to employment centers in the region, and provide a vital hurricane evacuation for the state.
